

Fair Orchids

Paphs & Phrags - species

06-2016 *Subj to prior sale*

Please email or call to place an order.

	<p>← Paph callosum, var sublaeve Mature plants can set multiple flowers on the spike, reportedly up to 5. These are unbloomed multi-growth plants</p>	
<p>Paph charlesworthii (OZ breeding) → Line breeding at the Orchid Zone produces the highest quality flowers. Large seedlings, some are starting 2nd growth.</p>		<p>\$35 \$35</p>
	<p>← Paph charlesworthii, var alba (OZ breeding) Line breeding at the Orchid Zone produces the highest quality flowers. Large seedlings, some are starting 2nd growth.</p>	
<p>Special charlesworthii offer: One standard & One alba ↑</p>		<p>\$110 \$125</p>
	<p>← Paph gratrixianum (OZ breeding) This villosum complex species has slightly smaller flowers, but strong upright spikes.</p>	
<p>Paph helenae → A very small growing population. Unbloomed multi-growth seedlings.</p>		<p>\$32 \$48</p>
	<p>← Paph insigne? This plant was purchased as insigne, but it has some traits which could point to Paph Nitens (insigne x villosum). If it is a true insigne, it has very good</p>	
<p>Paph liemieanum → One of the sequential blooming species, with clearer colors than primulinum. BS (most are in bud/spike)</p>		<p>\$35 \$35</p>
	<p>← Paph lowii (OZ breeding) BS seedling, unbloomed.</p>	
<p>Paph primulinum, var purpurascens → Since the yellow form was described first, the 'standard' color form is a variety in this species. Sequential blooming, BS (most are in bud/spike)</p>		<p>\$48 \$35</p>
	<p>← Paph sukhakulii, var aureum The all yellow form. Single growth BS, or old growth that blasted bud due to heater problem (these are working on 2nd growth).</p>	
<p>Paph villosum (OZ breeding) → The classic species used to breed flower size into the hybrids. BS, multi-growth.</p>		<p>\$35 \$32</p>
<p>←</p>		
<p>→</p>		
	<p>← Phrag besseae (OZ breeding) These line bred plants from The Orchid Zone are the best besseae I have seen</p>	
<p>Phrag schlimii (OZ breeding) → Another group of line bred plants with very high flower quality. Some of the schlimiis are fragrant!</p>		<p>\$42 \$38</p>
